Vinay Mahadik, Co-Founder/CEO

Vinay brings to Securly a strong professional experience in network security space with over 12 years of experience, having worked as a vulnerability engineer at Qualys and later at McAfee as a senior manager who handled next-generation firewall and invented there several patented technological products. He has a Masters in Network Security from NC State and an MBA from the Wharton School.

Vinay is deeply motivated to make a dent in the lives of school children by keeping them safe online.
